How to install video slider into your WordPress site or blog ?

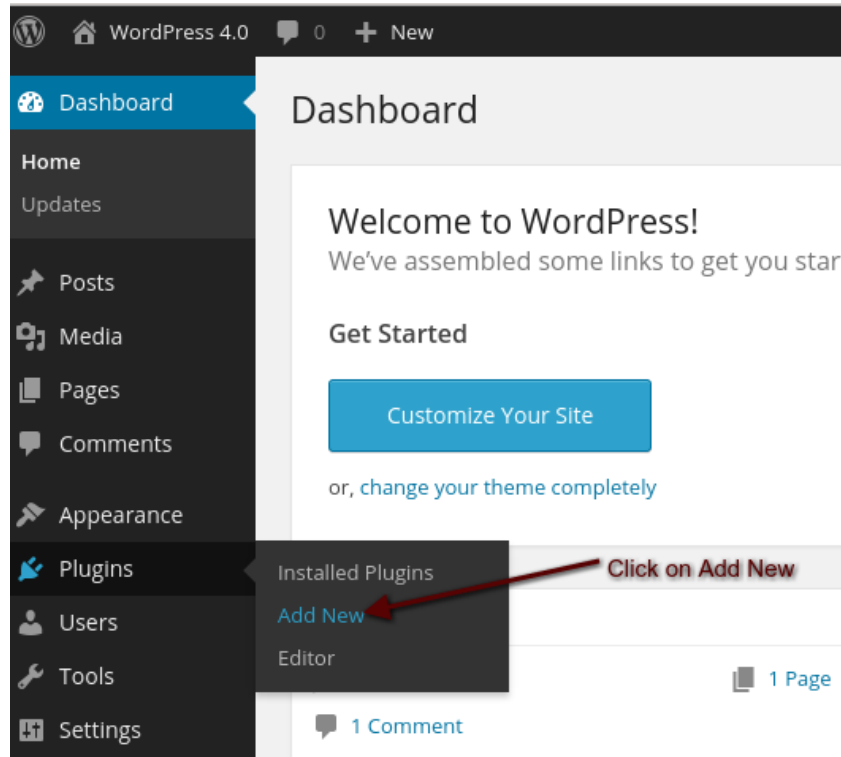

1. Just login to your website admin panel.

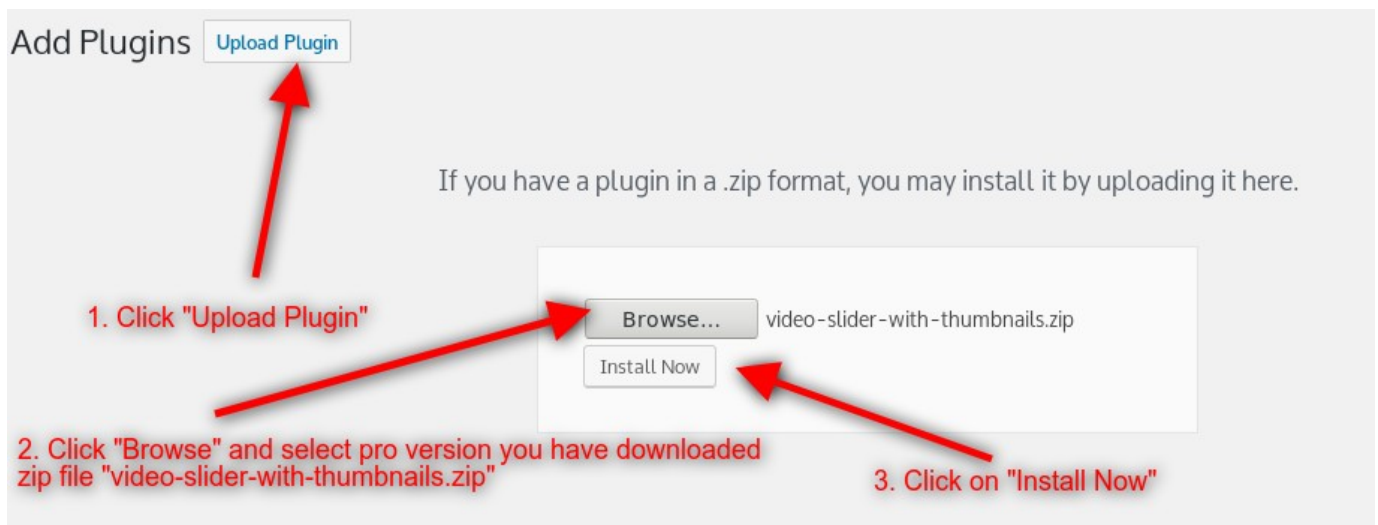

2. If you have installed free version of video slider then first you need to delete this plugin. Go to plugin management screen and deactivate plugin and delete it. No worries as deleting free version does not delete any data. When you create your first slider into pro version it will get back data automatically.

3. Now Add **pro version** Go to Menu. Hover your mouse on "Plugins" and click on "Add New"

4. Click on "Upload" Select plugin zip file called "video-slider-with-thumbnails.zip" and click on Install Now.

5. Activate Plugin

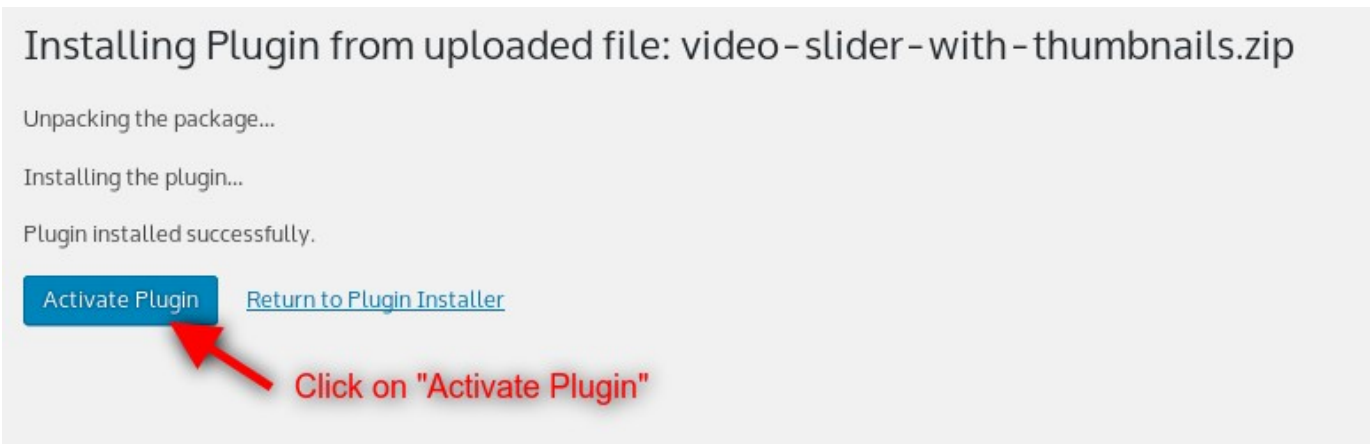

Installing Plugin from uploaded file: video-slider-with-thumbnails.zip

Unpacking the package...

Installing the plugin...

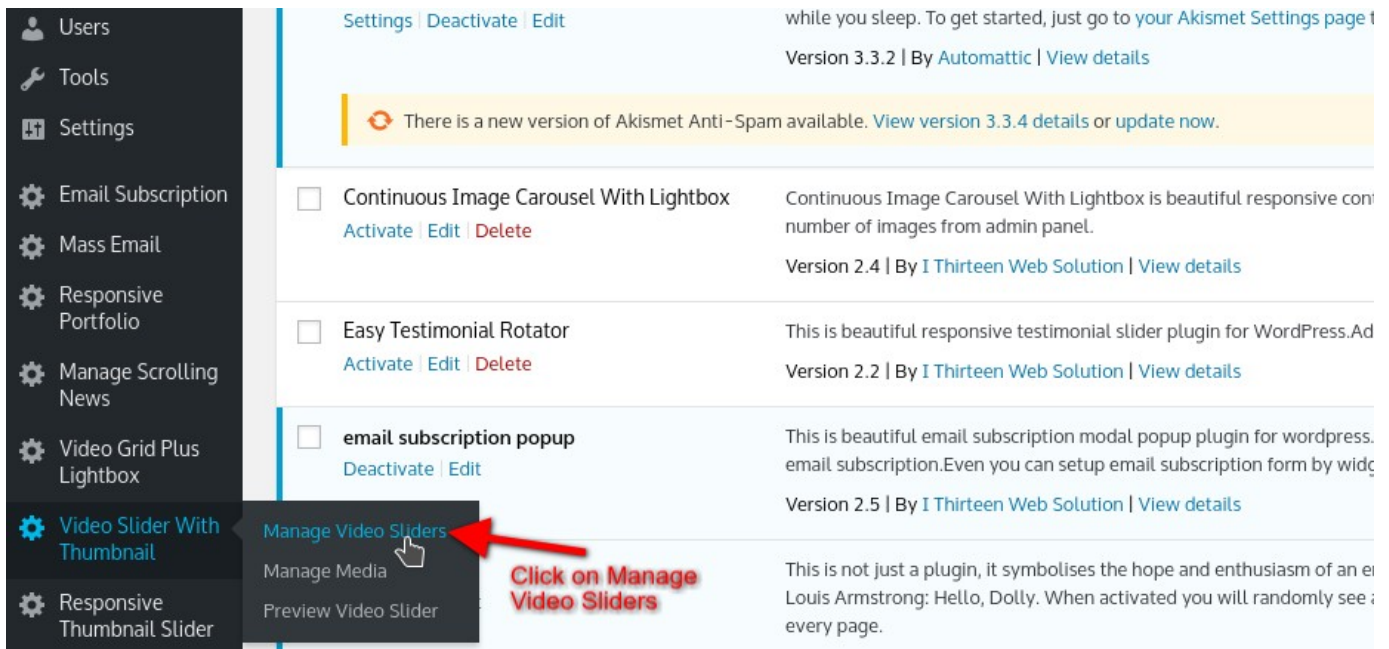

Plugin installed successfully.

How to add new slider?

After login to admin panel. At bottom there is menu called “Video Slider With Thumbnail” click on “Manage Video Sliders”.

The screenshot shows the WordPress admin dashboard. On the left sidebar, the 'Video Slider With Thumbnail' menu item is highlighted. A sub-menu is open, showing 'Manage Video Sliders', 'Manage Media', and 'Preview Video Slider'. A red arrow points to 'Manage Video Sliders' with the text 'Click on Manage Video Sliders'. The main content area shows a list of installed plugins, including 'Akismet', 'Continuous Image Carousel With Lightbox', 'Easy Testimonial Rotator', and 'email subscription popup'.

1. Click on "Add New" button

Add Media

Media Type (Choose Media Type)

Image Video

Video Information

Youtube Vimeo Metacafe DailyMotion Html 5 -Supported file types are .webm, .mp4(H.264- codec), .mov, .ogv

Note: Opera, Firefox and Chrome support Webm. Apple and Microsoft (IE and EDGE) support mp4(H.264) So I recommend use webm as main video and mp4, ogv etc as fallback video

How to add video slider into fronted?

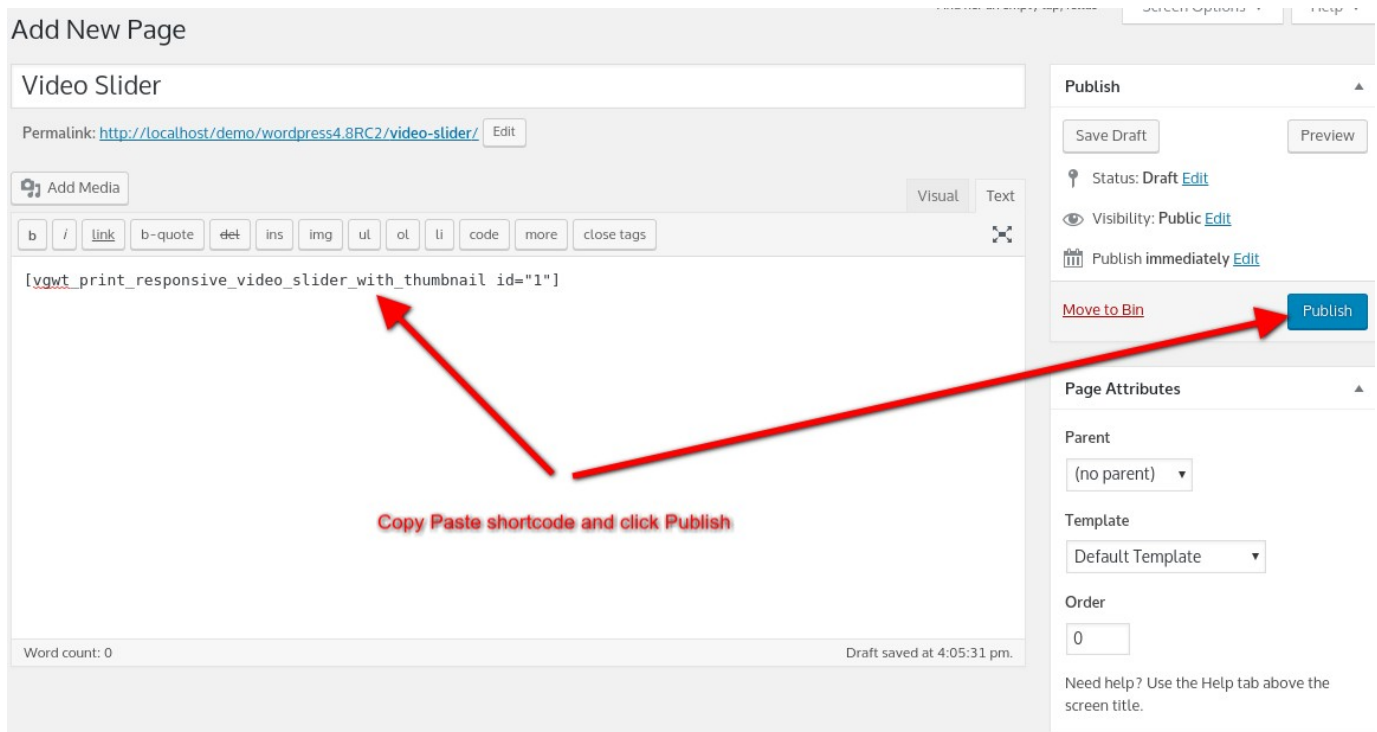

1. After login to admin panel. At bottom there is menu called "Video Slider With Thumbnail" click on "Manage Video Sliders".

2. Copy Shortcode of video slider you would like to print into post or page

3. Go to page or post you would like to have portfolio grid. Open page or post into edit mode and paste shortcode.

The screenshot shows the WordPress 'Add New Page' editor. The title is 'Video Slider'. The permalink is <http://localhost/demo/wordpress4.8RC2/video-slider/>. The editor is in 'Text' mode, and the shortcode `[vgwt_print_responsive_video_slider_with_thumbnail id="1"]` is pasted into the content area. A red arrow points from the text 'Copy Paste shortcode and click Publish' to the shortcode. Another red arrow points from the same text to the 'Publish' button in the right-hand sidebar. The sidebar also shows 'Save Draft', 'Preview', 'Status: Draft', 'Visibility: Public', 'Publish immediately', and 'Move to Bin' options. The 'Page Attributes' section shows 'Parent: (no parent)', 'Template: Default Template', and 'Order: 0'.

How to call video slider into PHP theme file?

You can print video slider by following code where id is your actual slider id.

```
<?php echo do_shortcode('[vgwt_print_responsive_video_slider_with_thumbnail id="1"]'); ?>
```
