How to install Vertical thumbnail slider into your WordPress site or blog ?

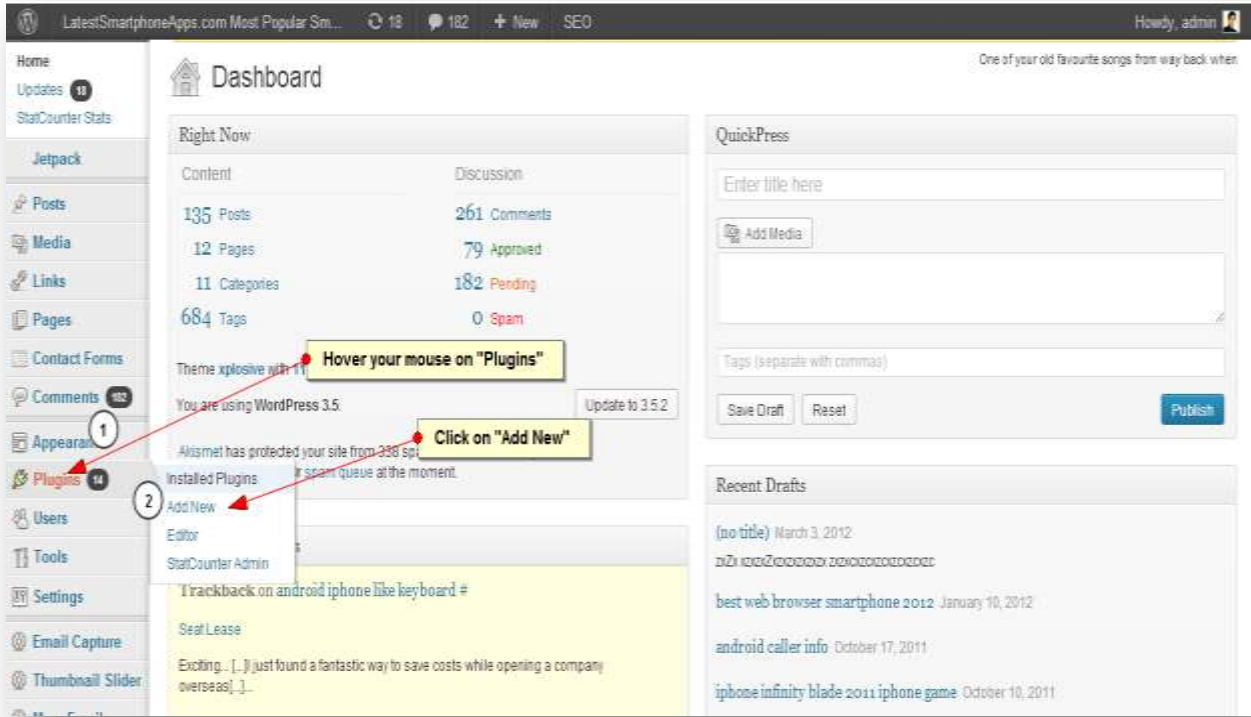

1. Just login to your website admin panel.

2. If you have installed free version of thumbnail slider then first you need to delete this plugin. Go to plugin management screen and deactivate plugin and delete it.

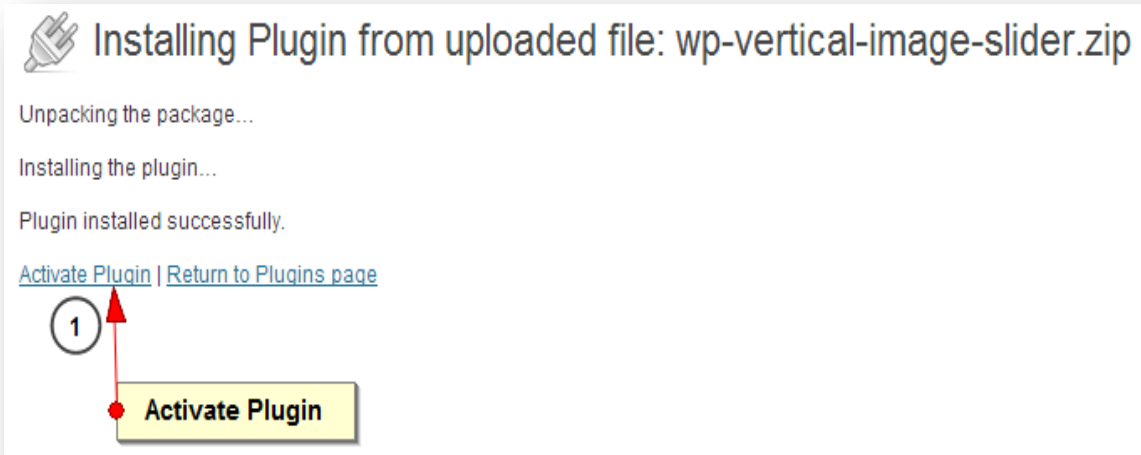

3. Now Add **pro version** Go to Menu. Hover your mouse on "Plugins" and click on "Add New"

4. Click on "Upload" Select plugin zip file called "wp-vertical-image-slider.zip" and click on Install Now.

5. Activate Plugin

The screenshot shows the WordPress plugin installation interface. At the top, there is a plug icon and the title "Installing Plugin from uploaded file: wp-vertical-image-slider.zip". Below the title, the progress is shown in three steps: "Unpacking the package...", "Installing the plugin...", and "Plugin installed successfully.". Underneath, there are two links: "Activate Plugin" and "Return to Plugins page". A red arrow points from a yellow callout box labeled "1 Activate Plugin" to the "Activate Plugin" link.

1 **Activate Plugin**

How to add new vertical thumbnail slider?

1. After login to admin panel. At bottom there is menu called "Vertical Thumbnail Slider" click on "Manage Sliders".

The image shows the WordPress admin dashboard. On the left is a sidebar menu with various options. The 'Vertical Thumbnail Slider' option is highlighted in red. A red arrow points from a circled '1' to this menu item. A yellow callout box with the text 'Click on "Manage Sliders"' is positioned over the 'Manage Sliders' sub-menu item. The main dashboard area shows a 'Welcome to WordPress!' message, a 'Get Started' section with a 'Customize Your Site' button, and a 'Right Now' section with statistics for content and discussion. The 'Vertical Thumbnail Slider' menu item is located at the bottom of the sidebar, below 'Photo Gallery' and above 'Collapse menu'.
